**FACULTY OF EDUCATION
EMPLOYMENT EQUITY PLAN
AND
REPORT**

2010 -2014

OCTOBER-SEPTEMBER

SECTION A: INTRODUCTION AND INSTRUCTIONS

The University of KwaZulu-Natal is a public institution with a mission of becoming a leading institution of higher learning in South Africa. The University commits itself to academic excellence, innovation in research and critical engagement with society.

VISION

To be a Premier University of African Scholarship.

PURPOSE

A broad objective of the Employment Equity Act is to achieve an equitable representation of the designated groups that mirrors their Economically Active Population (EAP). The Economically Active Population includes people from 15 to 64 years of age who are either employed or unemployed and seeking employment; as per Statistics South Africa's parameters.

In line with this objective the University has pledged itself as a truly South African university that is demographically representative, redressing the disadvantages, inequities and imbalances of the past.

PRINCIPLES AND CORE VALUES

The University commits itself to the principles and values enshrined in the constitution of the Republic of South African and articulated in the preamble to the Higher Education Act of 1997 (as amended).

GOALS

The University is trying to achieve the following goals in Equity:

- Increase representation of under-represented groups in both staff and students, across all levels of the University, and to provide support for those groups;
- Staff and students skilled in working and studying with people from diverse cultural and linguistic backgrounds;
- Ensure that the University meets its responsibilities to staff and students as required by legislation like the Employment Equity Act and the Promotion of Equality and Prevention of Unfair Discrimination Act;
- Embed principles of equity within the fabric of the working life of the University;
- Work towards 'best practice' in equity and diversity in all areas of the University's operations.

SECTION B: NATIONAL AND REGIONAL DEMOGRAPHICS

The national and regional workforce distribution supplies information on the total population and the Economically Active Population (EAP) of the country's four major population groupings in terms of their race and gender, which is crucial for the setting of Employment Equity numerical goals.

It is important for the demographics of the workplace to reflect the demographics of the operating region, thus it is necessary to consider the KZN population, to see whether there are any marked differences from the national data.

Table 1: Profile of the national population by race and gender and profile of the Active Population by race and gender

Population Group	National population distribution (2007)			Economically active (QLFS, 3 rd Quarter 2009)		
	Male	Female	Total	Male	Female	Total
African	18,417,431	19,837,737	38,255,168	6,697,284	5,847,073	12,544,357

	48.2%	51.8%	100%	54%	46%	100%

Table 1 shows that Africans constitute the largest group (78.9%) of the national population in South Africa; followed by Whites (9.6%); Coloureds (9.1%) and Indians (2.4%). In terms of gender, females constitute 51.8% and males 48.2% of the national population.

Again **Table 1** shows that Africans constitute the largest group (73.5%) of the EAP in South Africa; followed by Whites (12.2%); Coloureds (11.3%) and Indians (3%). In terms of gender, males and females are relatively evenly distributed at 54% and 46% respectively. Africans are the only group, where their EAP lags behind their National Population Distribution (NPD).

Quarterly Labour Force Survey (3rd Quarter 2009)

Table 2 shows that in Kwazulu-Natal Africans constitute the largest group (80%) of the EAP; followed by Indians (10.8%); Whites (7.9%); and Coloureds (1.3%). In terms of gender, males and females are relatively evenly distributed at 52.6% and 47.4% respectively.

SECTION C: WORKFORCE PROFILE AND CORE & SUPPORT FUNCTIONS

1. FACULTY WORKFORCE PROFILE – SEPTEMBER 2009

Table 3: Please report the total number of **employees** (including employees with disabilities) in each of the following **occupational levels**: Note: A=Africans, C=Coloureds, I=Indians and W=Whites

Occupational Levels	Male				Female				Foreign Nationals		Total

2. TRENDS ANALYSIS

The trends analysis provides a snapshot of representation in the top four occupational levels for the year 2009. Focus is placed on these specific four levels because almost all designated employers, including ourselves both large and small, have a large over-representation of Africans in the lower levels as such setting of special target in less needed. Trends on the representivity levels is centred around the first three occupational levels, i.e. Top Management and Senior Management, Professionally Qualified and Academically Qualified levels, as this is where the designated groups are most under-represented.

Figure 1: Percentage representation of senior and top management employees by race and gender

AM - African Male	AF - African Female	IM - Indian Male	IF - Indian Female	CM - Coloured Male
CF - Coloured Female	WM - White Male	WF - White Female	FM - Foreign Male	FF - Foreign Female

	AM	CM	IM	WM	AF	CF	IF	WF	FM	FF

..... UKZN Top and Senior Management	23.1	0	7.7	23.1	15.4	0	7.7	7.7	15.4	0

Figure 1 shows that UKZN top and senior Management lags behind relative to their national and regional EAP statistics. It also shows that white males have the highest representation, followed by Indians and White females.

Figure 2: Percentage representation of middle management and professional employees by race and gender

		AM	CM	IM	WM	AF	CF	IF	WF	FM	FF
■	National EAP	39.2	6.1	1.9	6.7	34.2	5.2	1.1	5.5	0	0

Quarterly Labour Force Survey (3rd Quarter 2009)

The analysis of figure 2 above reveals that there is an over representation of the white males and females, Indian males and females relative to their respective EAP while African males and females are grossly under represented in relation to their respective EAP.

Figure 3: Percentage representation of junior management, skilled technical and academically qualified by race and gender

		AM	CM	IM	WM	AF	CF	IF	WF	FM	FF

- -	Education Skilled Technical and Academically Qualified	12.58	0.66	11.9	7.28	23.17	2.64	18.5	21.2	0.7	1.32

Quarterly Labour Force Survey (3rd Quarter 2009)

The analysis of figure 3 shows that white female, and males are over represented relative to their EAP. Indian males and females are also over represented relative to their EAP. Coloured females are slightly over represented relative to their regional EAP. African males and females are under represented relative to their respective EAP.

Figure 4: Percentage representation of semi-skilled employees by race and gender

		AM	CM	IM	WM	AF	CF	IF	WF	FM	FF
■	National EAP	39.2	6.1	1.9	6.7	34.2	5.2	1.1	5.5	0	0

—	Education Semi Skilled Workers	0	0	40	0	40	0	0	20	0	0

The analysis of figure 4 shows that Indian males are over represented relative to their respective EAP. White females are also over represented relative to their respective EAP.

SECTION D: TARGET SETTING

Guidelines and principle for setting targets

- The national and regional statistics of economically active people should provide a guide.
- Targets should be set by occupational levels, race and gender, first at the university level and then at a college/division level; the reason to this is because Department of Labour (DoL) evaluation is at university level, and not at college/division level.
- The principle of appointable candidates (as entrenched in the equity policy) should be retained.
- A special consideration and/or target should be set for people with disabilities.

1. Implementation guidelines

- Special development programs as well as budget should be identified and introduced to accelerate upward movement especially for internal staff, i.e. accelerated development programs.

- Transformation is of strategic importance to the university as such, it must form key performance criteria of all executive members as well as senior management.
- Special considerations and communication addressing the possible fears of the non-designated employees must be introduced (promotion will be without prejudice).

NB* Employment equity and skills development are the two elements of the seven pillars of broad-based black economic empowerment which was gazetted in 2009. The Institute of Higher Learning, in part the university, in terms of statement 004 of code 000 of the Code of Good Practice is eligible to be measured against the adjusted generic scorecard as they are incapable of being measured against the ownership scorecard. Special consideration and executive decision is required in setting skills development and employment equity targets.

2. Approved Positions and Vacancies
