

**UNIVERSITY OF  
KWAZULU-NATAL**

**EMPLOYMENT EQUITY PLAN  
AND  
REPORT**

**OCTOBER 2009 – 30 SEPTEMBER 2014  
CORPORATE RELATIONS**

## **SECTION A: INTRODUCTION AND INSTRUCTIONS**

The University of KwaZulu-Natal is a public institution with a mission of becoming a truly South African University as a leading institution of higher learning in South Africa, the University commits itself to academic excellence, innovation in research and critical engagement with society.

### **VISION**

To be the Premier University of African Scholarship.

### **PURPOSE**

A broad objective of the Employment Equity Act is to achieve an equitable representation of the designated groups that mirrors their Economically Active Population (EAP). The Economically Active Population includes people from 15 to 64 years of age who are either employed or unemployed and seeking employment; as per Statistics South Africa's parameters.

In line with this objective the University has pledged itself as a truly South African university that is demographically representative, redressing the disadvantages, inequities and imbalances of the past.

### **PRINCIPLES AND CORE VALUES**

The University commits itself to the principles and values enshrined in the constitution of the Republic of South African and articulated in the preamble to the Higher Education Act of 1997 (as amended).

### **GOALS**

The University is trying to achieve the following goals in Equity:

- Increased representation of under-represented groups in both staff and students, across all levels of the University, and to provide support for those groups;
- Staff and students skilled in working and studying with people from diverse cultural and linguistic backgrounds;
- Ensuring that the University meets its responsibilities to staff and students as required by legislation like the Employment Equity Act and the Promotion of Equality and Prevention of Unfair Discrimination Act;
- Principles of equity embedded within the fabric of the working life of the University;
- To work towards 'best practice' in equity and diversity in all areas of operations.

## **SECTION B: NATIONAL AND REGIONAL DEMOGRAPHICS**

The national and regional workforce distribution supplies information on the total population and the Economically Active Population (EAP) of the country's four major population groupings in terms of their race and gender, which is crucial for the setting of Employment Equity numerical goals.

It is important for the demographics of the workplace to reflect the demographics of the operating region, thus it is necessary to consider the KZN population, to see whether there are any marked differences from the national data.

**Table 1:** Profile of the national population by race and gender and profile of the Active Population by race and gender

Population Group	National population distribution (2007)			Economically active (QLFS, 3 <sup>rd</sup> Quarter 2009)

	48.2%	51.8%	100%	54%	46%	100%

**Table 1** shows that Africans constitute the largest group (78.9%) of the national population in South Africa; followed by Whites (9.6%); Coloureds (9.1%) and Indians (2.4%). In terms of gender, females constitute 51.8% and males 48.2% of the national population.

Again **Table 1** shows that Africans constitute the largest group (73.5%) of the EAP in South Africa; followed by Whites (12.2%); Coloureds (11.3%) and Indians (3%). In terms of gender, males and females are relatively evenly distributed at 54% and 46% respectively. Africans are the only group, where their EAP lags behind their National Population Distribution (NPD).

### 2. TRENDS ANALYSIS

The trends analysis provides a snapshot of representation in the top four occupational levels for the year 2009. Focus is placed on these specific four levels because almost all designated employers, both large and small, including ourselves, have a large over-representation of Africans in the lower levels as such setting of special target in less needed. Trends on the representivity levels is centred around the first three occupational levels, i.e. Top Management and Senior Management, Professionally Qualified and Academically Qualified levels, as this is where the designated groups are most under-represented.

**Figure 1:** Percentage representation of senior and top management employees by race and gender

	AM	CM	IM	WM	AF	CF	IF	WF	FM	FF
— National EAP	39.2	6.1	1.9	6.7	34.2	5.2	1.1	5.5	0	0
- - Regional EAP	40.7	0.7	6.8	4.4	39.3	0.7	3.9	3.5	0	0
... UKZN Top and Senior Management	14	0	14	29	7	0	14	14	7	0

Figure 1 shows that UKZN top and senior Management lags behind relative to their national and regional EAP statistics. It also shows that white males have the highest representation, followed by Indians and White females.

**Figure 2: Percentage representation of middle management and professionals employees by race and gender**

	AM	CM	IM	WM	AF	CF	IF	WF	FM	FF
National EAP	39.2	6.1	1.9	6.7	34.2	5.2	1.1	5.5	0	0
Regional EAP	40.7	0.7	6.8	4.4	39.3	0.7	3.9	3.5	0	0
Corporate Relations Middle Management and Professionals	50.0	0.0	0.0	0.0	0.0	0.0	50.0	0.0	0.0	0.0

Quarterly Labour Force Survey (3<sup>rd</sup> Quater 2009)

The representation of African males is a bit over the regional and national EAP. There is over representation of Indian females whilst a huge underrepresentation of African females in the Division is observed. For future purposes the target to this level should be people from the targgetted groups, African females, coloured females, coloured males and etc.

**Figure 3: Percentage representation of junior management and academically qualified employees by race and gender**

	AM	CM	IM	WM	AF	CF	IF	WF	FM	FF
National EAP	39.2	6.1	1.9	6.7	34.2	5.2	1.1	5.5	0	0
Regional EAP	40.7	0.7	6.8	4.4	39.3	0.7	3.9	3.5	0	0
Corporate Relations Junior Management and Academically Qualified	7.4	0.0	7.4	3.7	7.4	0.0	55.6	14.8	3.7	0.0

Quarterly Labour Force Survey (3<sup>rd</sup> Quater 2009)

African males and female representation seriously lag behind, whilst others are marginally represented with the exception of Indian females being highly over represented then followed by white females. For future purposes, the Division should look into targeting African females, African males not leaving out the Coloureds in this level.

**Figure 4: Percentage representation of semi-skilled employees by race and gender**

## SECTION D: TARGET SETTING

### 1. Guidelines and principle for setting targets

- The national and regional statistics of economically active people should provide a guide.
- Targets should be set by occupational levels, race and gender, first within the university and then in college/division; the reason to this is because Department of Labour (DoL) evaluation is at university level, and not at college/division level.
- The principle of appointable candidates (as entrenched in the equity policy) should be retained.
- A special consideration and/or target should be set for people with disabilities.

### 2. Implementation guidelines

- Special development programs as well as budget should be identified and introduced to accelerate upward movement especially for internal staff, i.e. accelerated development programs.
- Transformation is of strategic importance to the university as such, it must form key performance criteria of all executive members as well as senior management.
- Special considerations and communication addressing the possible fears of the non-designated employees must be introduced (promotion will be without prejudice).

### 3. Approved Positions and Vacancies - 2014
